- UK-based fully
trained staff
- 99.5% customers
satisfied

Centra
Pulse™

Does your family worry about you?

If you live on your own it's only natural that your family worry about your safety and what would happen in the case of an emergency.

For over 27 years our customers and their families have enjoyed the peace of mind that they get from our in-home personal alarm service.

“I'd never thought about using an in-home personal alarm before, however, after my husband passed away, I was living alone and needed something to put my mind at rest. My independence is still very important to me and Centra Pulse's service helped me to keep it.”

Pam, aged 72, Dorset

How does it work?

Step 1

Press the button on your pendant or wristband.

Step 2

Within seconds we will speak to you via the loud speaker on the main alarm unit.

Step 3

We will call one of your nominated contacts or call for medical assistance should you need it.

Our care package

For just £3.34* a week

you will receive our emergency support service, the alarm unit and the pendant.

You can fit the alarm unit yourself and we'll post it out to you for £30*. Alternatively we can arrange for one of our friendly installers to set it up for you for £55*.

Please note that you may be eligible for VAT relief if you have a long term health condition or disability.

Extra Reassurance

We recommend you invest in a key safe so that your nominated contacts – a friend, family member, or neighbour – can securely access your home if you need them to.

We also offer a range of detectors that can sense risks such as smoke, falls, floods, gas and even if a saucepan has been left on a hob.

*Price does not include VAT

With 1 in 3 people over 65 years old experiencing a fall every year, having immediate support at the touch of a button can be a life saver.
