LIVE IN CARE
The cost effective alternative
to residential care

Referred to by our customers as 'lovely blue angels' we deliver award-winning home care as personal as you are.

your life
your home
your care
your way

You love your home and you feel safe there. Needing additional care and support shouldn't change that.

Home care with Bluebird Care, keeps you safe at home.

You may be in a situation where you need an extra pair of hands to help with daily chores, or you may have complex needs that require more dedicated care.

We build our care packages around you and your individual needs which means that you and your family can rest assured you'll receive care and support exactly as you need.

Live in Care - how it works

The support our Customers receive from their Live-in Carer can be very varied; from companionship, mobility support and trips out, to personal & continence care and assistance with medication, meal preparation, cleaning and laundry.

The most important thing is that the Live-in Carer becomes a companion who becomes involved in our Customers' hobbies and interests. The means our Customers are able to maintain their independence, continue to live as they wish and will never feel lonely at home.

All of our Live-in Carers have regular, formal supervisions and partake in training opportunities to ensure they are delivering the highest standard of care. With our local office team never far away, our Customers are safe in the knowledge that Bluebird Care's Live-in Service is the right choice.

We provide every Customer with regular Live-in Carers to ensure continuity and familiarity. Most of our staff work in pairs, normally on a two-week on, two-week off basis. At changeover time, the Live-in Carers conduct a detailed hand over to ensure any changes are discussed and any disruption is kept to a minimum.

What are a Live-in Carer's needs

Our Live-in Carers need their own bedroom and space to keep their clothes and personal belongings. They also need to be provided with a weekly food budget, this can be managed as part of the weekly shop or by purchases made separately by the Carer themselves.

Live-in Carers must be able to take a two hour break each day. If relief cover is required during this period, your local Bluebird Care office can arrange this for you.

All our Live-in Carers are part of the Bluebird team. This means we take care of all the Tax, Pension and National Insurance concerns that come with private employment.

Live in Care provides **continuity**, and a **familiar** routine, all in your most familiar environment - your own **home**.

How we can help

Receiving care and support at home means you benefit from 1-2-1 care, allowing you to develop strong relationships with your care assistants.

Their experience and training ensures you receive the highest quality of care, whilst their happy disposition brings you joy and laughter.

With our well-trusted care service, you can remain at home surrounded by loved ones and beloved pets and still enjoy your home, garden and community.
