

Why Are We Different?

Set in the heart of the London, Bluebird Care Islington & Hackney is a leading homecare and live-in care agency. What makes our homecare services different is that we put you first. We aim to provide you with the same standard of care that we would expect for our own families. This means valuing each person's unique qualities and seeing them as an individual, and not as a list of care needs. We work alongside families and individuals to tailor our wide range of services to help our customers stay in control of their own care for as long as they are able to.

We have an exceptional team of experienced and highly-qualified carers who can provide 24 hours of support, our visits are flexible and can range from as little as 30 minutes a day to a full live-in service. We provide social outings and our carers will often go that extra mile for you. With a 'Good' CQC rating, no upfront fees, no hidden extras and a trial period, you can be assured that you are receiving the very best there is.

Our commitment to deliver the high-quality services you want, how you want them and in the comfort of your own home is stronger now than ever.
